Career Objective

DevOps Engineer with strong understanding in cloud-native application deployment, CI/CD pipeline automation using Jenkins, infrastructure-as-code with Terraform, and container orchestration with Docker and Kubernetes on AWS Passionate about streamlining delivery pipelines, improving system reliability, and adopting DevOps best practices

Education

B.Tech : Computer Engineering
D.Y.Patil University, School of engineering and technology, ambi, pune
07/2022 - 06/2025   CGPA : 8.42

Diploma: Computer Engineering
G.M.C Polytechnic, shahada, maharashtra
08/2019 - 06/2022   Percentage : 85.26%

Professional Experience

Delfine India Technology │ DevOps Intern   Pune,Maharashtra
jan 2025 to jun 2025

- Implemented a full-stack CI/CD pipeline using Jenkins integrated with GitHub and Docker.
- Automated application deployment to AWS EC2 instances, reducing manual effort and ensuring consistency.
- Containerized microservices using Docker and optimized Dockerfile for performance.
- Reduced deployment downtime by 99% through automation and best practices in CI/CD.
- Wrote Groovy scripts for Jenkins pipeline and managed infrastructure with Terraform

Technical Skills

Cloud Platforms : AWS
Operating Systems : Linux, Windows Server
Programming Language: Python
Version Control : Git, GitHub
Infrastructure as Code (IaC): Terraform
CI/CD Tools: Jenkins
Containerization and Orchestration: Docker, Kubernetes
Configuration Management: Ansible
Monitoring : Grafana, Prometheus
Database Management : MySQL
Scripting: Bash Scripting

Certification

- **Python**
- **AWS Educate Introduction to Cloud 101**
  Amazon Web Services Training and Certification
